

Return your old battery
Gift a child
a new life

EXIDE

in association with

unicef 

When you return a used battery to any of our authorised dealers, we contribute on your behalf, to UNICEF's Child Environment Programme.

It would help change the lives of the underprivileged children who are in dire need of water, sanitation and hygiene in schools. Your contribution would help save our environment as well. Lead, a major component in your car battery, if not handled responsibly, can harm the environment and our health.

Return your used car battery and make the world a better place.

Whenever, wherever your car battery
is in trouble, we'll be there.

Just dial the Bat Mobile number
and we'll be right there to bring your car back
to life. Because, we love cars!
