

When you return a used battery to any of our authorised dealers, we contribute on your behalf, to UNICEF's Child Environment Programme. It would not only empower the lives of the underprivileged children who are in dire need of water, sanitation and hygiene in schools, your contribution would help save our environment as well. Lead, a major component in your battery, if not handled responsibly, can harm the environment and our health. Return your used battery and make the world a better place, in more ways than one.

Exide Bikerz range of batteries has been specially designed for the new generation two wheelers. Conforming to Japanese Standard JIS D5302, the batteries have special features that meet the arduous requirements of two wheeler riding on Indian roads.

- Quick start and high reliability ensures trouble-free service
- High performance, exclusive grid design, paste technology and alloy formulation enhances durability and reduces corrosion
- Special separator (synthetic pulp bonded with glass mat) with low resistance prevents active material shedding and acts as a shock absorber
- Sulphate retardant formula protects against detrimental effects of lead-in-through during idle storage, thereby enhancing life and performance
- Strong durable polypropylene container with additional reinforcement protects against shocks and bumps

Introducing Exide XPack. The only zero maintenance motorcycle battery with the X Factor. Built with world-class Calcium Effects Technology, it delivers a power-packed performance and endures tough Indian road conditions. XPack comes with a 36-month pro-rata warranty that includes an 24-month free replacement warranty.

- Calcium Effects Technology along with Ca-Ca Alloy ensures a maintenance-free life even in tough Indian road conditions
- PE Envelope & Glassmat separators protect from bumps and vibrations thereby prolonging its life
- Topping-up is not required within the warranty period under normal running condition
- Its design makes it completely un-spillable and is virtually sealed
- Specially designed, flat type single gang plug allows easy maintenance
- Absence of a Breather Tube eliminates the need for a drain pipe
- Bolted connection rules out the risk of failure of soldered joints
